

2023 Retail Catalog

Our Story

Sweet Rollz Golf was created with a simple goal – to breathe new life and style into golf, starting with the radical reimagining of the boring putter grip. For too long, attempts to add style and flair to golf accessories had mostly been cheesy and kitschy, or both. As a result, golf accessories have mostly remained unoriginal and, well, pretty meh.

As we set out to design the “Sistine Chapel of putter grips” we wanted to be bold but keep it classy. The result is a beautiful line of super high-quality putter grips for every golfer who wants to make a personalized statement without having to sacrifice performance.

Material

Each grip material is made from a fabric reinforced polyurethane sheet with a thermoformed rubber inner structural frame. A layer of adhesive is added to the rubber, then the grip is hand-stitched together over the rubber frame (similar to the process used in the stitched leather steering wheel in a Porsche).

Feel

The stitched synthetic urethane grip incorporates a low-profile embossed honeycomb pattern which allows the feel of the putt to transfer seamlessly into your palms – for the ultimate feedback while putting.

Material and Craftsmanship

Based off Sweet Rollz Golf grip designs that are used and loved by thousands, now every golfer can pair their putter grip with matching and stylish head cover designs.

These custom-sewn, primo grade leather putter head covers are designed for daily use. Like your granddad's baseball mitt these covers will only get better with time.

As with any high-end leather product, distinctive markings and slight variances in texture and color are natural and a testament to the headcover's authenticity.

Each headcover features:

- Milled full grain 100% genuine leather
- Upgraded magnet closure for a crisp lock
- Expertly stitched embroidery
